ANALYSIS

This is the first Extension of Time for the subject Special Use Permit (SUP-5663), which was approved by the City Council on 02/16/05. A Special Use Permit is exercised upon approval of a business license to conduct the activity, if one is required, or, otherwise, upon issuance of a certificate of occupancy or approval of a final inspection. The applicant has not been issued a business license or a certificate of occupancy nor have they received a final inspection for the proposed mixed-use development. No building permits have been issued for the proposed development other than a demolition permit; however civil improvement plans have been submitted and are pending a second review prior to a mylar submittal. The applicant has indicated that the Extension of Time is necessary due to rising construction costs and increasing interest rates forcing them to look at other construction methods and alternatives for the project, which in turn has caused significant delays.

FINDINGS

Staff supports the subject Extension of Time for the approved Special Use Permit. The applicant has demonstrated that they are working towards development of the subject site. A condition of approval has been added, which recommends that the extension be allowed for two years or until such time as another Extension of Time application is approved.
